

Place Making

PLACE-MAKING AS AN INNOVATIVE TOOL OF URBAN PLANNING

What is place making?

- Place making is the process of making communities a better place.
- Developing communities
- Better infrastructure
- People working collectively
- Protecting our communities
- Place making is about making sure that people have access to basic needs

South Africa

- There are informal settlements
- The government builds houses for the less fortunate.
- They move them from informal settlements to proper houses called RDP.
