

The prevention measures our School has taken for Covid-19

- 1. We have temperature check twice a day. (In the morning at the school gate & at lunch time.)
- 2. We need to wear a mask during classes, except PE.
- 3. We avoid activities with lots of students in the same room, for example, the weekly student assembly.
- 4. The everyday temperature in summer in Taiwan is always up to 30 degree Celcius. We need to keep the upper row windows half opened when the AC (air-conditioner is on).
- 5. We use sanitizers to clean the classrooms twice a week.
- 6. The janitors at school use sanitizers to clean the public areas every day. 📖 janitor 工友
- 7. We need to keep social distance during lunch time.
- 8. Anything else we can do better ?

Why is the school doing all the above ? Put the number from 1-7 into the boxes below.

To kill the pathogen	To block transmission routes	To avoid close contact
