A Planet Full of Plastic

救救我們堆滿 塑膠的地球

文·圖 / 尼爾·雷登 (Neal Layton) 譯 / 翁苑好

What do you see?

I see _____.

Is it plastic?

Yes.

No.

Hello you!

Who, me?

That's right. Quick question: do you ever think about what things are made of?

Because some things are made of paper, like this book. Some things are made of wood. Or metal. Or glass.

But some things, in fact lots of things, are made of something called PLASTIC.

Layton (2019), A Planet Full of Plastic, double spread 1.

你好啊！

誰，我嗎？

就是你，問你一個問題喔：你想過我們身邊的各種東西是用什麼做出來的嗎？

你看，有些東西是用紙做的，比如這本書；有些東西是用木頭、金屬或玻璃做的。

但有些東西，應該說非常多東西，是用一種叫做「塑膠」的材料做的。
