澎湖小章魚（中文版）

A colorful illustration of an octopus at night. The octopus has a purple body and tentacles, with two large red suckers. It is set against a background of dark blue and black horizontal stripes, suggesting a night sky. A yellow crescent moon and blue clouds are visible in the upper left. The scene is filled with white stars of various sizes. The text is centered in the upper right area of the illustration.

**Octopus Minors
have 3 hearts
and are night
hunters.**

Octopus Minor (英文版)
