Story Time

I got the fish

Fishermen's Day

● 給家長與老師：本月號，我們以在大海中捕魚的漁夫為素材，為大家介紹日本神奈川縣小田原港捕魚人家的工作情形。捕魚的規模及方法，有各種不同的型態，在此，我們要介紹的是，在魚群游動的路線上，掛上看起來類似圓幣的魚網來捕魚的「雜魚底刺網」法。

Let's get the
fishing net ready.

They are a family. They are
all fishermen.

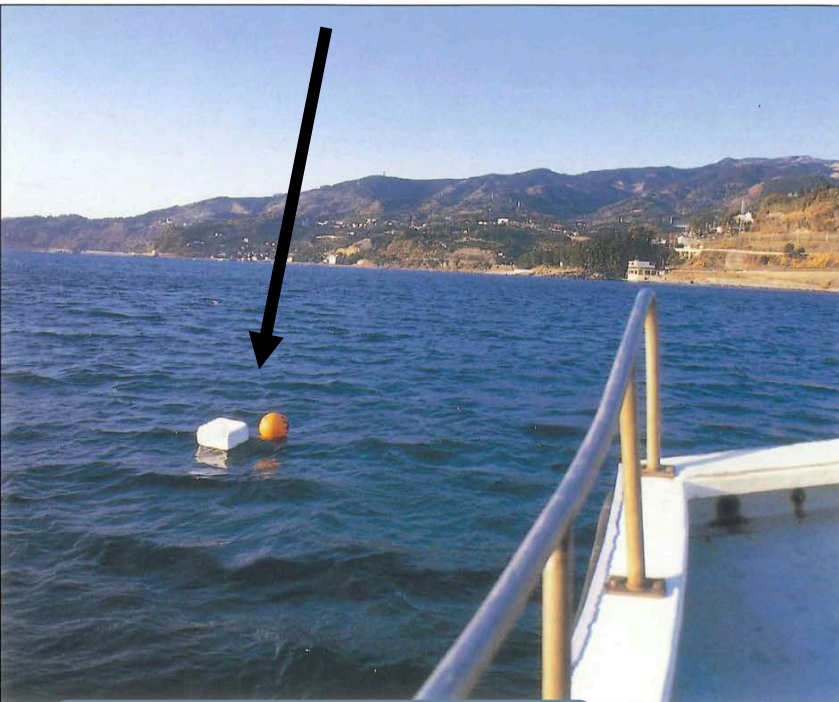

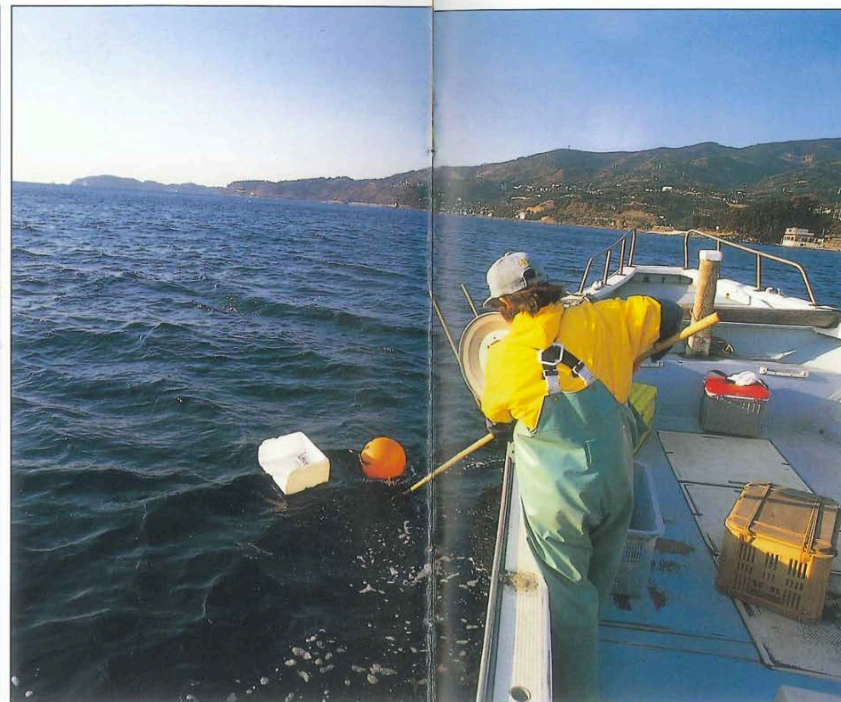

Now we are in the
ocean.
Fishing boats can
be very fast.

I see a target.

There's a fishing net
down there.

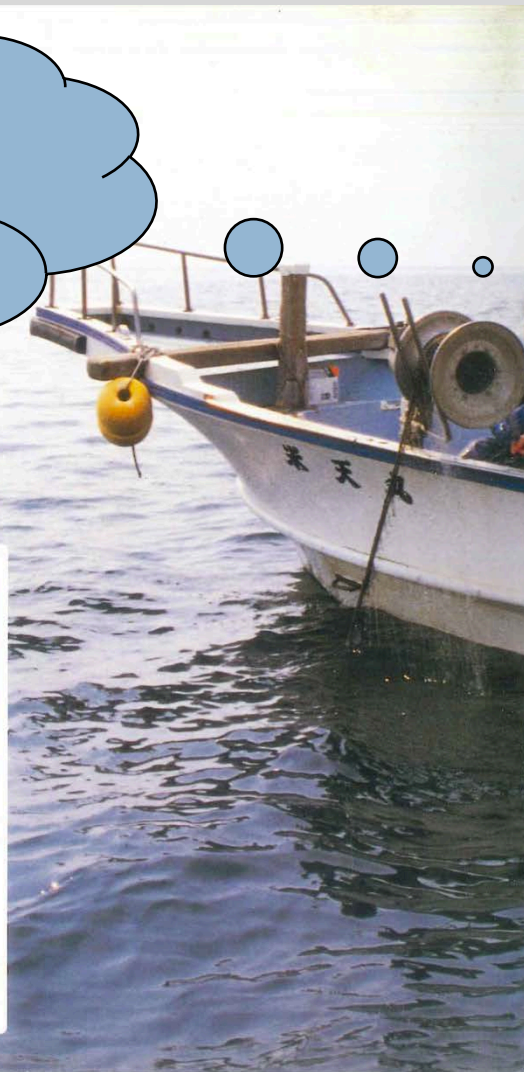

Let's pull the net.

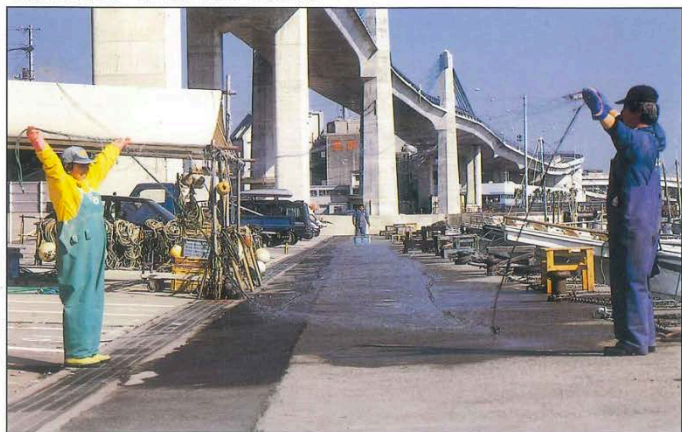

Go! Go! Go!

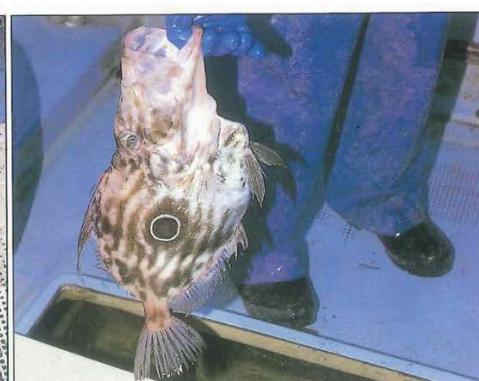

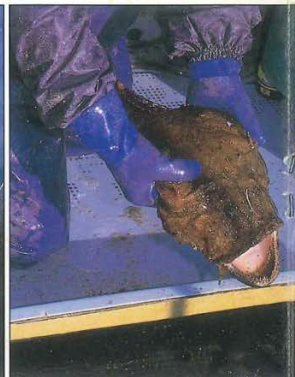

I hope we can catch
a lot of fish today.

魚網是透明的，而且有這麼大、這麼長喔。

在海裡面，魚網會變成一種透明的、看不見的機關，只要魚闖進來，就會被鉤住。

多一點、多一點、再多一點魚上來！

哇！好大一條魚。啊，原來是…鯊魚！

哦…鯊魚可是保育類的魚喔。

把鯊魚放回海裡去。

哇，好棒！是比目魚耶。

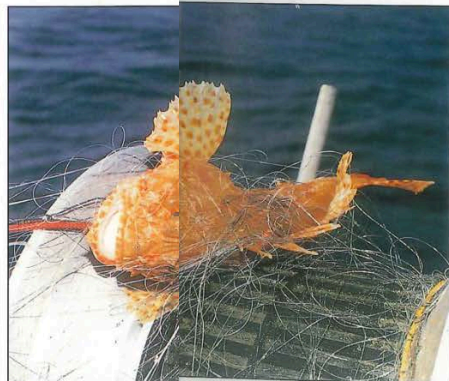

把牠也放到水箱裡去吧。

哇，從來沒看過這種魚喲。

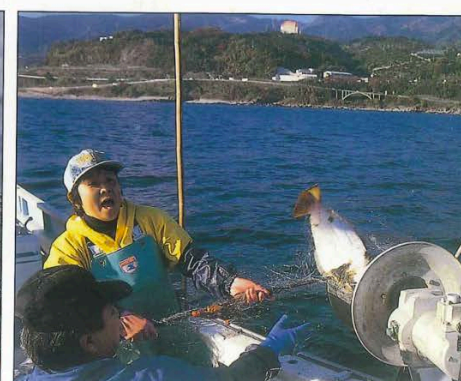

待會回去，
請別人看看是什麼魚吧。

啊，是魷魚！

石鯛耶！等等，還有更大條的。

哇，抓到了！抓到了！

We got a BIG fish!

It's great!!

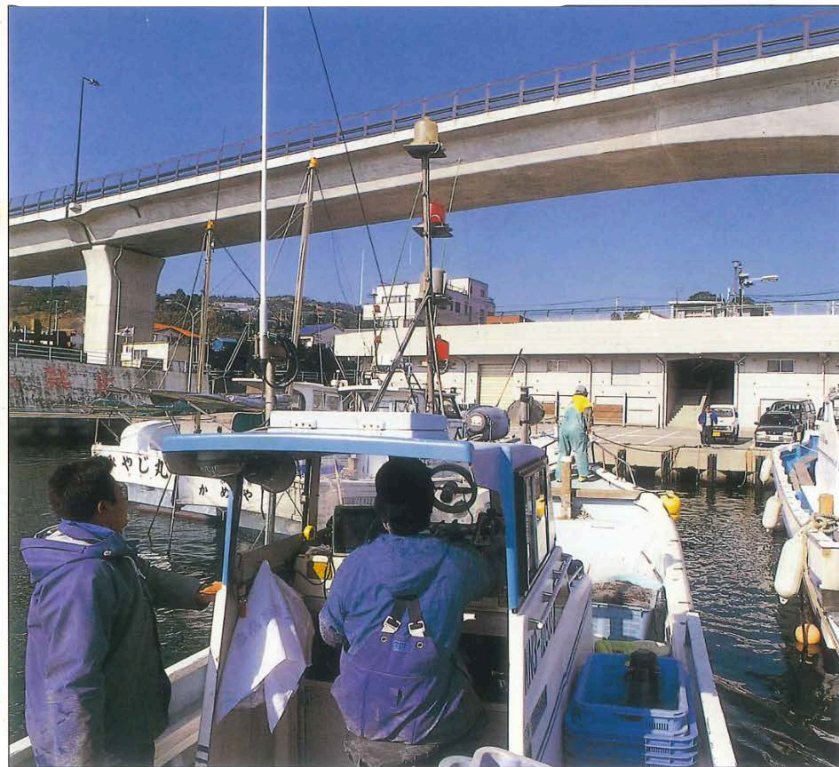

We have more fish under
the boat.

鯖魚

✪ 給家長與老師：漁家會在不同的漁場撒下數個魚網，當一個魚網被拉起後，漁家就會再撒下一個新的魚網，以期待翌日會有更多的漁獲。當漁家檢查完一個漁場所有的魚網後，就會前往下一個漁場，繼續捕魚的作業。

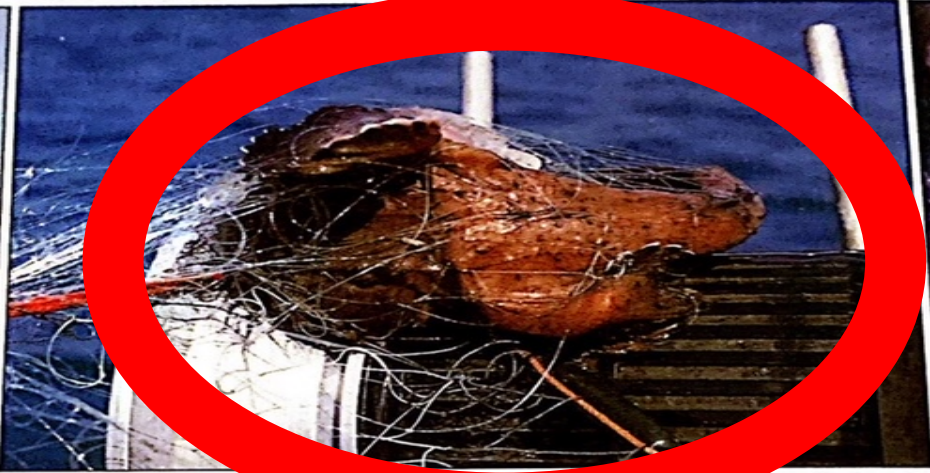

It's a great day!

Let's clean up and go home.

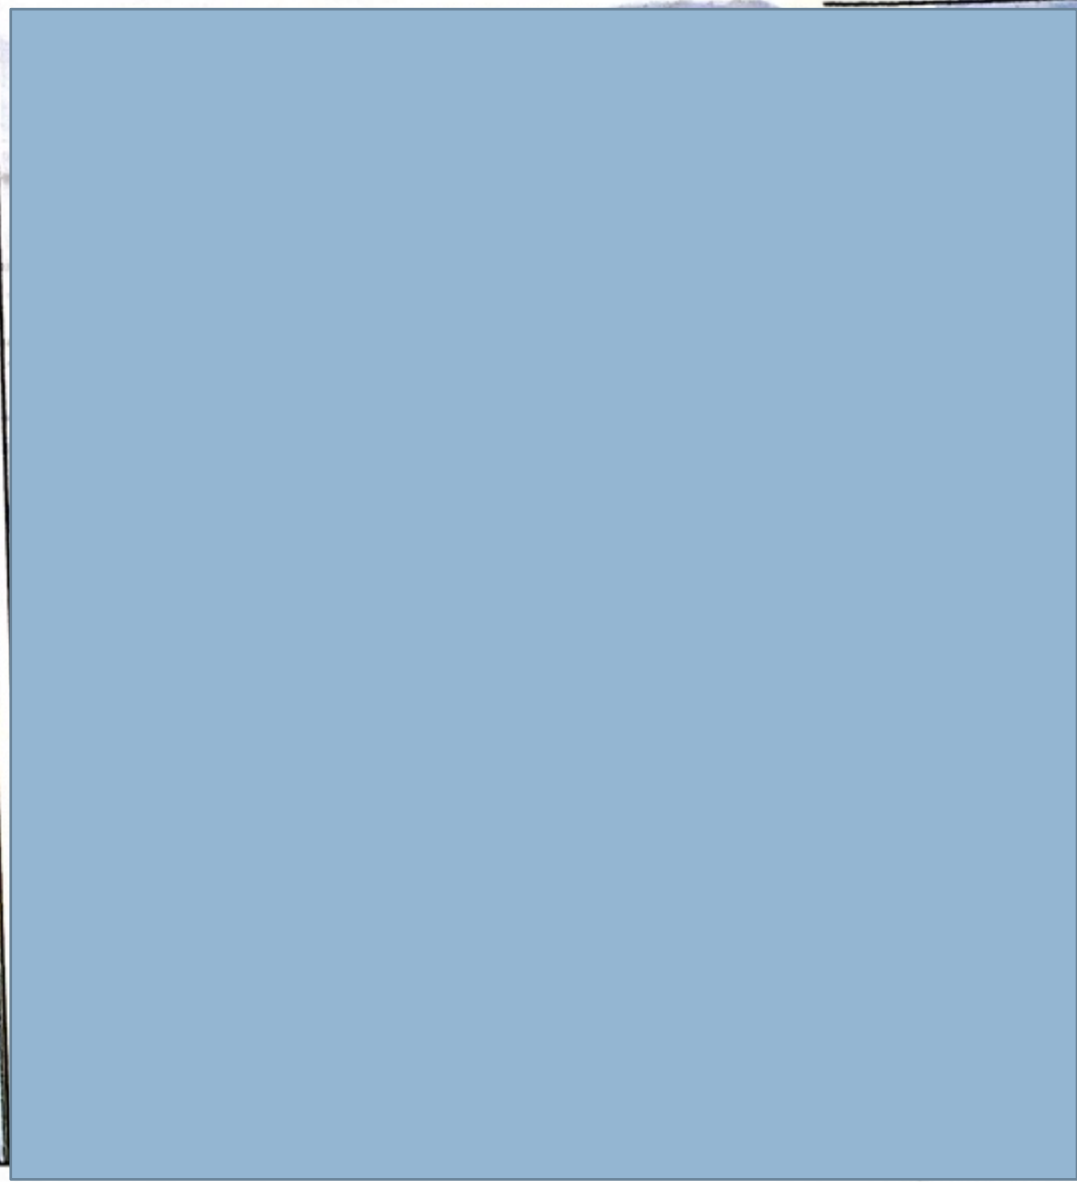

Hope we can get more
fish tomorrow.

日本棘鯊(鯊魚類)

HOW YOU CAN HELP THE OCEAN

USE FEWER PLASTIC PRODUCTS

Plastics can harm marine life by consumption, entanglement and habitat destruction!

CLEAN THE BEACH

SAVE WATER

EAT SUSTAINABLY

Protect ocean life diversity by knowing where your seafood comes from.

USE ECO-FRIENDLY PRODUCTS

While doing dishes, laundry, or using personal care items, keep in mind where all of the products end up once they go down the drain.

CLEARWATER MARINE

Fishermen help the ocean

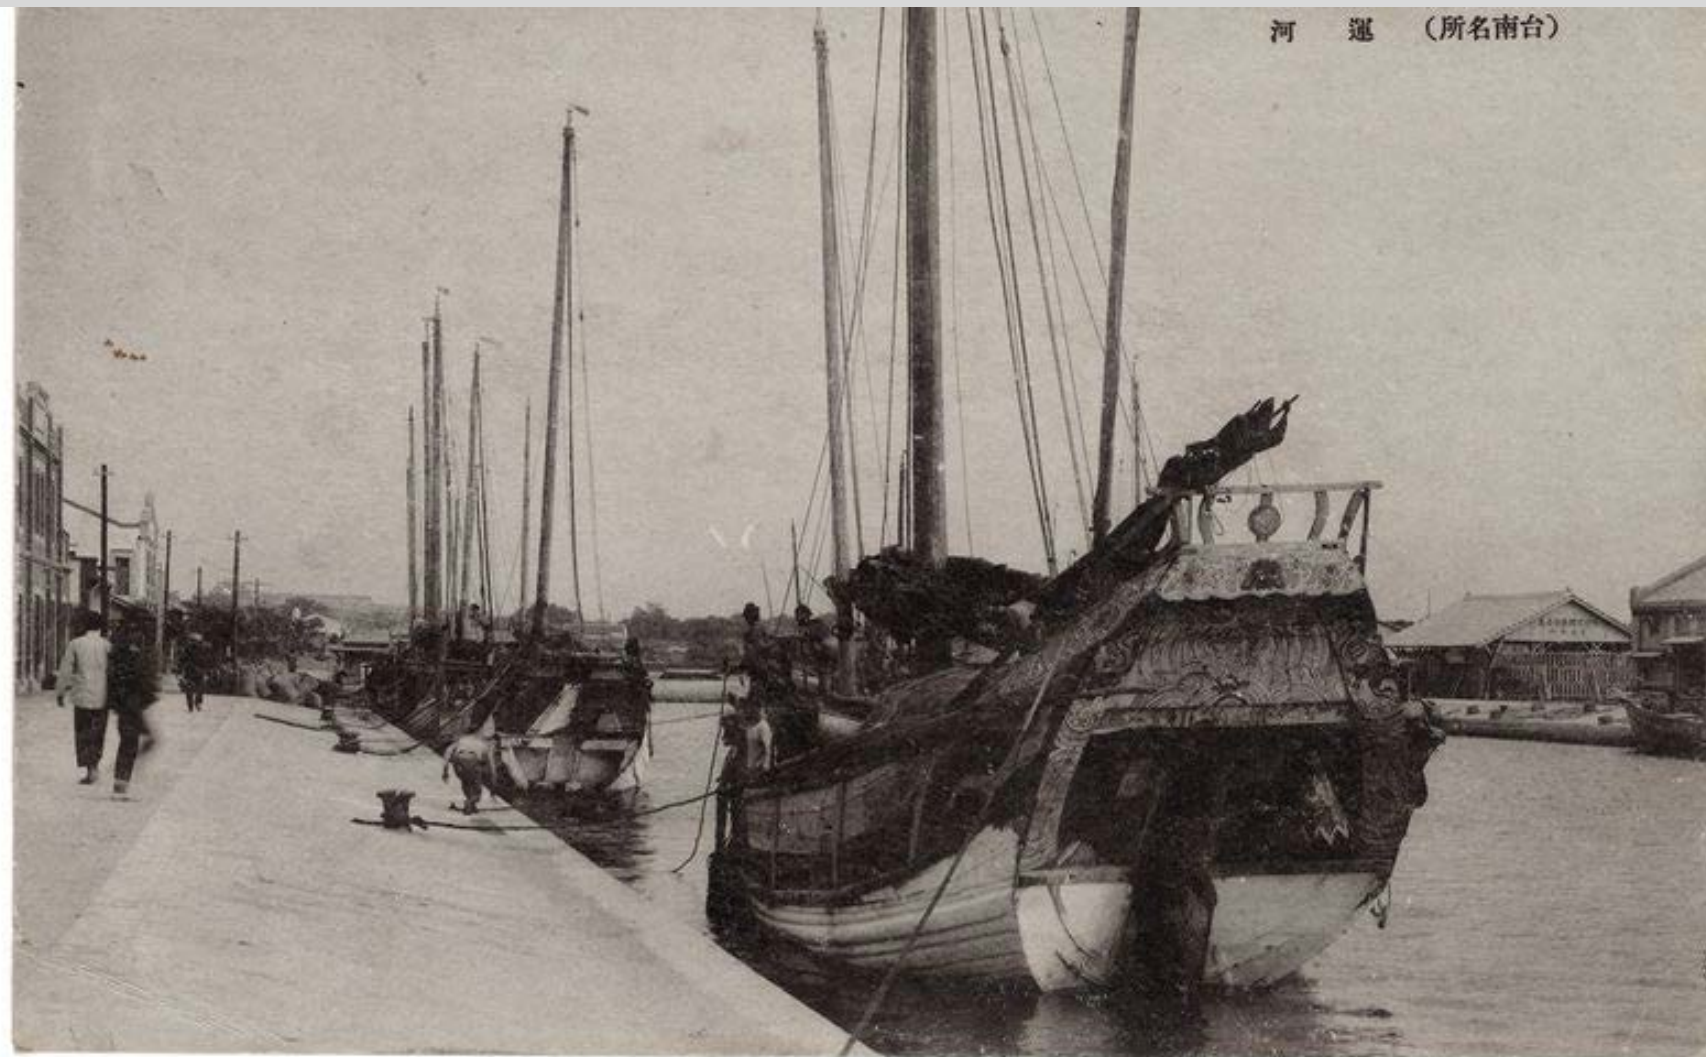

**Fish or others
you can eat**

**Fish or others
you **should put**
back to the ocean.**

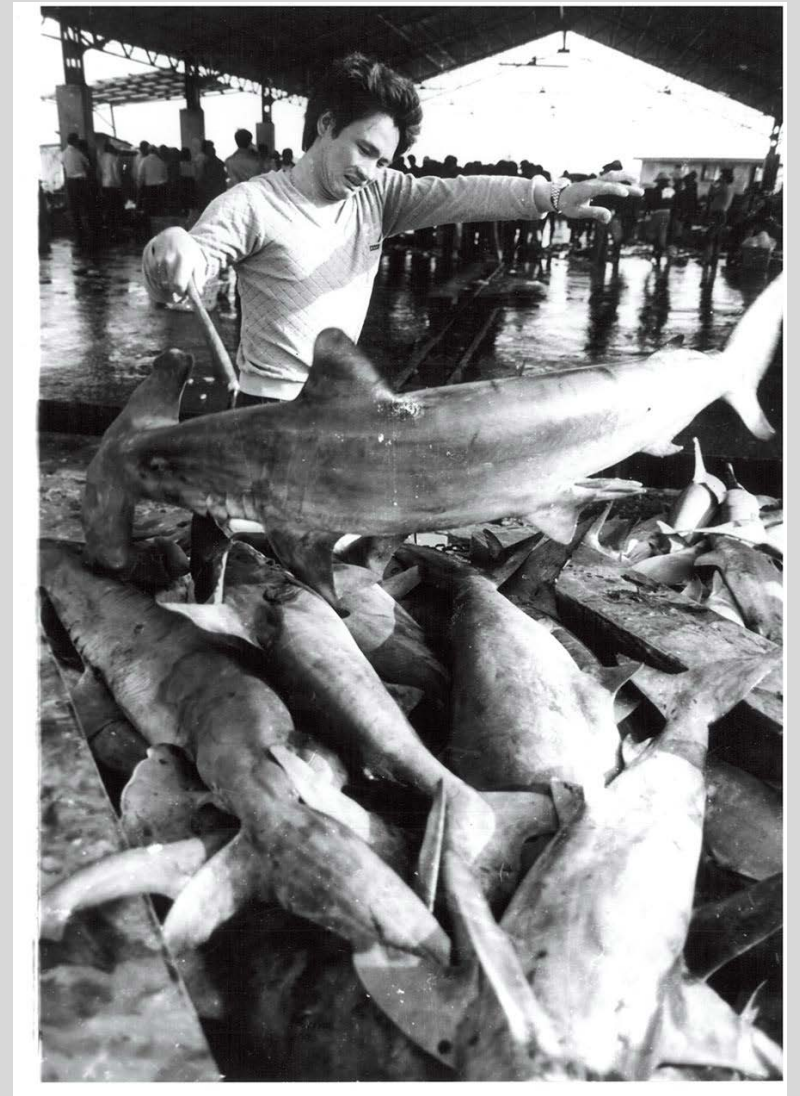

**Bring back to the
land to help the
ocean.**

THANK YOU

Hi, my name is Doris.

This is my net art fish.

I use pink , white , and
blue  paper to make my fish.
