Application Form for International Exchange

1. Proposal for International Exchange

Hamji High School is known as a prestigious school that receives commendations every year in many fields, including science and English education, for its teamwork of passionate teachers and students. As a reputable school, we are eagerly willing to cultivate global citizens. Our students are mature students who embrace differences and have the dignity of global citizens.

As a prestigious science-focused high school in the city, we enact diverse science-related events and programs. Given relatively few global and English events, both students and teachers anticipate international exchange programs and have high expectations at the same time. During COVID-19, students faithfully participated in foreign teacher's classes and programs for preparing international exchanges and participated in after-school classes every week to prepare posture and mindset as global citizens.

As such, Hamji High School is passionate about international exchanges to cultivate talented global citizens and contribute to the development of education. Also, we will make all out to strengthen chances to build our cooperation for opportunities for cultural and language exchange among students.
