

[Information about our school's international exchange club]

- Our international exchange club has 11 students, so we're looking for a group(it can be a class or a club activity) that's similar in size.

- I started running an English club and have been trying to give my students opportunities to meet people from different countries and to exchange language/culture. In 2021, our club engaged in a small exchange program with a school in Indonesia.
I'm looking to find an exchange partner teacher in Taiwan this year, and starting from this year - hopefully we can work on the exchange program continuously even when we switch schools and have different students in the future.

- Some of the topics I'd like to cover in the exchange classes are as follows:
 1. introduction of the students (with a theme, for example - my daily routine, my favorite time of the day, what I'm proud of my country, etc)
 2. School in Taiwan and Korea (general info about schools, school lunch, school uniform, what you learn during PE classes, etc)
 3. Environmental issues and what we can do to help
 4. Different cultures between the two countries

- I'd like the students to have enough time to prepare for a presentation (this would be during individual lessons, not during the exchange class) and then to meet up on Google Meet to give a presentation and share ideas/questions.

Thanks so much for reading this, and if you have any questions, please feel free to contact me by email. (hankies81@naver.com)
